This Computer Basics course is absolutely free through online mode. You can access Study Material in login Panel in form of PDF & Video Tutorial. *Rs. 200/- applicable if Certificate required. Get this sophisticated yet simple green certificate template for those who have successfully completed computer training. High-quality and printable layout and graphics that are easy to edit. Download this fully layered certificate for free. //editors-cdn.template.net/assets/sls-pricing-page-prod/_next/static/chunks/main-16113380b0ea37643957e.js, 5B...slug%5D-b588dbf4e6de02f7054b.js. CSC Academy has launched a programme, "Basic Computer Course (BCC)". The programme offers basic computer training to equip a person to use computers in day-to-day life for professional and personal use. After completing the course, the person will be computer literate and will be able to: Acquire confidence in using computer techniques available to users Recognize the basic components of computers and terminology Understand data, information and file management Create documents using Word Processor, Spreadsheet & Presentation Software Browse the internet, search information, use email and collaborate with peers Use e-Governance applications Use computer to improve existing skills and learn new skills Simulated hands-on training with real-life scenarios. Continuous assessment after every module instead of one-time examination. The certificate will be issued by CSC Academy after successful completion of Course. Duration: 36 hours training of 8 Modules & Assessments. Course code: CCB&MT Duration (Part time): 1.5 Months Total hours: 36 Course Benefits: The course focuses on computer fundamentals. Who Should Attend: Those who have had no previous exposure to computers. COURSE CONTENTS Computer Fundamentals and Organisation Components of a Computer Introduction to Operating System Various Windows OS Networking Internet CERTIFICATE IN BHARATEEYA OPEN OFFICE Course code: CBOO Duration (Part time): 1 Months Total Hours: 25 Course Benefits: In-depth training in using the BOO package on Windows & Linux platform. This course helps in knowing the power of word processing, work sheet management presentation etc., in Indian languages and enables typing of letters, sending of e-mail, messages, computing of spread sheets setting formulas and presentation in various Indian languages. Who Should Attend: Marketing executives, BPO's, accounts personnel, doctors, lawyers and other professionals who wish to improve their overall productivity by understanding BOO and it's innovative features, with an additional facility to utilize the Indian language interface. COURSE CONTENTS Writer (Word Processor) Calc (Spread sheet) Impress (Presentation Tool) Draw (Drawing function) CERTIFICATE IN OFFICE AUTOMATION (MULTILINGUAL) Course code: CMOA Duration (Part time): 3 months Total Hours: 82 Course Benefits: Get an in-depth training on the world's most popular packages and how they can be integrated using GIST Multi-lingual Technology. The course also helps to learn automating and optimizing office admini-stration. Who Should Attend: Marketing executives, accounts personnel, doctors, lawyers and other professionals who wish to improve their overall productivity by understanding Office 2007 and it's innovative features, with an additional facility to utilize the Indian language interface of GIST Multi-lingual Technology! COURSE CONTENTS Various Windows OS Importance of Word Processing under windows Manual process v/s Electronic process Advantages of Windows based Word Processing Packages available under Windows or Indian languages MS Office 2013 using ISM Bharateeya Open Office CERTIFICATE IN VISUAL BASIC.NET Course code: CVB.NET Duration (Part time): 2 months Total Hours: 72 Course Benefits: Acquire skills needed to develop database applications using DOTNet Framework and debug and build files. Learning how to build applications using window forms and other technologies without being lengthy. Who Should Attend: Software developers, analysts, application developers, technical managers, or students interested in using Visual Basic.NET to develop database applications, and wanting to prototype, build and /or integrate Windows-based applications using Visual Basic NET. COURSE CONTENTS DOTNET Framework and the VS.Net IDE VB.net v/s VB6 .NET-Defined Object Oriented Capabilities Class and Properties Threading Models Creating of Windows Forms VB.Net Controls, Format and User Interface Design Principles File Handling in VB.net ADO.NET Working with Server Explorer, Data Form and Data Adapter Wizard User Controls and Deploying VB.Net Application Web Forms and Server Controls and COM Component CERTIFICATE IN ORACLE 9i Course code: COR Duration (Part time): 3 months Total Hours: 72 Course Benefits: The course provides a comprehensive introduction to use Oracle's SQL for database access, covering data manipulation and transaction management concepts. Who Should Attend: Those interested in working with SQL in Oracle or other relational database products, including application developers, programmers, database administrators and managers. No previous database experience is required. COURSE CONTENTS Introduction to Database Concepts Starting SQL+PLUS Querying databases Joining Tables & Subqueries DDL commands Other database objects SQL *reports Creating partitioned Large objects PL/SQL Cursors and Exception handling Subprogram in PL/SQL Abstract data types Nested tables and Varrays Tuning SQL Introduction to Oracle DBA Oracle 9i CERTIFICATE IN TALLY 9.0 Course code: TALLY9 Duration (Part time): 1.5 months Total Hours: 36 Course Benefits: Acquire skills required to operate Tally Accounting Package, Report Generation, Taxation aspect etc. Who Should Attend: Commerce Students, Accounts Personnel and other Professionals who are involved in accounting related activities can attend this course. COURSE CONTENTS Tally9.0 Basic Concepts of Accounting Accounting on Computers Tally Fundamentals Report Generation Accounting principles of Trading and Manufacturing Organizations Getting Functional with Tally Taxation Budgeting Multilingual Functionality CERTIFICATE IN TALLY.ERP 9 Course code: C TALLYERP 9 Duration (Part time): 2/4 months Total Hours: 96 Course Benefits: This course intend to provide training to manage Accounting, Finance, Inventory, Manufacturing, Payroll etc. This course offers a range of opportunities for employment seekers. Who Should Attend: 12th Pass with Science/Arts/ Commerce COURSE CONTENTS Basic Concepts of Accounting, Accounting on Computers Data Maintenance Inventory System Invoicing Auditing Taxation Banking Multi Account Inventory Reports Point of Sales CERTIFICATE IN ADVANCED PHP Course code: CAPHF Duration (Part time): 3 months Total Hours: 144 Course Benefits: PHP is an extremely popular open-source scripting language that allows complex operations to be executed in a hypertext environment. This course gives depth training of Dynamic Web Development with use of latest technologies like Joomla with MySQL as backend. Who Should Attend: HSC or Equivalent with programming back ground. COURSE CONTENTS Contains of PHP HTML, DHTML, CSS, JAVA Script Joomla CERTIFICATE IN BOSS & OPEN SOURCE TECHNOLOGIES Course code: CBOSS&OT Duration (Part time): 4 months Total Hours: 96 Course Benefits: This course provides in-depth training in open source operating system, BOSS linux that supports all Indian languages which is installed in computer systems in all Government departments and open office in Indian languages on windows & linux platform. This course helps to know the features of open source technologies like supporting peripheral devices, desktop, laptops, Bio-sensing devices, digital signatures, etc.. This course enables to learn to design and program in web applications using the latest tools and PHP. Who Should Attend: UG Students / Graduates with Programming knowledge C, C++ COURSE CONTENTS OS Concepts, Open Source Technologies, BOSS LINUX, BOO, HTML, PHP with Programming CERTIFICATE IN ADOBE ILLUSTRATOR Course code: CAIL Duration (Part time): 2 months Total Hours: 72 Course Benefits: This course will teach students the basics of this point-and-line design system, including such elements as airboard control, zooming and scrolling, using and customizing keyboard shortcuts and fine-tuning image transformations etc. and building custom shapes, modifying the airboard grid, adding and manipulating text, creating animations and taking advantage of the raster-conversion feature. It is also geared towards various type of drawing, such as fashion design, cartography, cartooning or architectural drafting. Since the vector design system is so flexible, Adobe Illustrator courses can be helpful to creative professionals in nearly any visual discipline. Who Should Attend: SSC with artistic skills COURSE CONTENTS Advanced Image Editing Adobe Indesign Working with Illustrator Documents Painting with Illustrator Working with Type Printing Process Saving and Importing Images Practical CERTIFICATE IN ADOBE PREMIER COURSE code: CAP Duration (Part time): 2 months Total Hours: 72 Course Benefits: Adobe Premiere Pro Course is a part of Creative Cloud. That means you have access to all the latest updates and future releases the moment they're available. You can use Sync Settings to keep your settings, workspaces, and keyboard shortcuts organized across multiple computers. Sharpen your skills and master new tools with a rich and growing library of training videos. And Creative Cloud is integrated with Behance, so you can share your projects and get immediate feedback from creative around the world. Who Should Attend: SSC with artistic skills COURSE CONTENTS Streaming Video Technology Premiere Pro Video Capturing Multiple Sequences Basic Editing Concepts and Tools Capturing Audio Transitions Using Audio Effects Premiere Pro's Audio Effects Adobe Title Designer window Analog and Digital Video CERTIFICATE IN INDESIGN Course code: CINDESIGN Duration (Part time): 2 months Total Hours: 60 Course Benefits: Adobe InDesign is a page design software program that lets you design and release a broad range of documents in print, online and on mobile devices. Accurate control over typography, built-in imaginative devices, and an intuitive design environment let you produce sensational page layouts much faster and more successfully. In design is a widely-used software application program for design page, manufacturing and composition. It is great for multi page projects such as magazines, brochures, newsletters or any tasks predestined for professional quality output such as PDF files and balance out printing presses. Who Should Attend: SSC with artistic skills COURSE CONTENTS Introduction to Adobe Indesign The work area The Control palette The tools Palette Basic navigation and typography. Working with graphics, Libraries, tables outlets, Multi page documents and text styles CERTIFICATE IN MULTI-LINGUAL MULTIMEDIA Course code: CMM Duration (Part time): 4 months Total Hours: 96 Course Benefits: This course gives basic training for candidates who enter into Multimedia industry. Candidates learn all basic aspect of Graphics Design, Image Editing and professional Animation application Macromedia Flash along with GIST Technology. This course enables candidates to gain knowledge in Graphics designing and Animation. Who Should Attend: SSC with artistic skills COURSE CONTENTS Basic Arts, Graphics, File Formats, Corel Draw, Photoshop, Adobe Flash CERTIFICATE IN AUTOCAD & 3D MAX Course code: CCAD&3DMX Duration (Part time): 4 months Total Hours: 120 Course Benefits: The AutoCAD & 3D MAX course will cover all the essential tools that are commonly used and you will develop a hands-on knowledge of their application. With 3D MAX you can produce professional 3D computer drawings of your ideas - projects, such as architectural, interior architecture, product design, furniture design projects etc. or any other ideas/projects you need to visualize from different angles for your client. Who Should Attend: HSC and should be familiar with basic computer operations COURSE CONTENTS Introduction to AutoCAD and Working with the Windows Environment Basic CAD Drawing Techniques Understanding Layers and Line types Creating Basic Geometry Annotating a Drawing with Text and Hatching Drawing Accurately Creating Selection Sets Basic Editing Skills Editing with Grips Advanced Drawing Techniques Dimensioning a Drawing Modifying Object Characteristics Using Symbols and Attributes 3D-MAX Course Contents: Basic 3D MAX Concepts Working with 3D MAX Coordinates Creating Surfaces Objects Solid Modeling Concepts Composite Solid Models Working With Solid Models Advanced 3D MAX Concepts Plotting 3D Models CERTIFICATE IN FLASH Course code: CFLASH Duration (Part time): 2 months Total Hours: 60 Course Benefits: These courses will train you on how to get inventive with Adobe Flash's drawing tools and spark life in to graphics via motion whilst integrating images, video and audio to build interactive experiences. The Adobe Flash training courses at Academy Class are designed for first-time Adobe Flash users and are perfect for digital and traditional designers who want to create interactive web experiences. Who Should Attend: SSC with artistic skills COURSE CONTENTS Introduction to Adobe Flash, Drawing tools in flash, Brushes in flash, Grouping and ungrouping, What are symbols, Transform menu, Tracing Bitmaps, Symbols and Movie editing images, Actions and event handlers, Creating basic flash files, Flash Movies, Advanced Flash tutorials Certificate in PHP & WORD PRESS Course code: CPHPWORDPRESS Course Benefits: WordPress is a free and open-source content management system (CMS) based on PHP and MySQL. It has all the feature's you need to build a professional website and with addition of code like HTML, JavaScript & CSS you can hard code your website for your needs, also the user has ability to change full theme of their site or create their own theme, with a platform like android WordPress is also total customizable, like the apps in android WordPress provides plugins which a user can use to generate anything like popup form, event, schedule an appointment etc. Who should attend? Course is designed for web developers/designers who wish to learn about WordPress, and for anyone wishing to incorporate WordPress into their web workflow. Whether you are fresher seeking for job, a professional want to update his skill, start-up want to create one's own website are welcome to join. Course contents: PHP HTML DHTML, CSS, JavaScript JOOMLA SQL WordPress Course duration: 4 months, 160 hrs Certificate in Android Course code: CIA Course Benefits: Course helps to develop skill in Open Source Mobile Application Development in depth. It covers all aspects of Developing Mobile Application Independently. Who should attend? This course is ideal for anyone looking to establish a career in Android app development. This course is best suited for- Aspiring app developers seeking to master app development and gain professional competence Web developers looking for a career change into Android app development Students and other individuals looking to start a career in app development Course contents: JAVA Concepts SQL Introduction to Android Android Application Structure Emulator-Android Virtual Device Basic UI design Android Preferences, UI design Tabs in Android Styles & Themes in Android ABD Tool, Adapters and Widgets Custom components, Threads Advanced Android Internship Program in Android Course duration: 4 months, 100 hrs Certificate in Digital Finance Course code: CDF Course Benefits: The Certified Course in Digital Finance is our foundational course on digital money, it covers all aspects of the digital payments and digital financial services ecosystem and value chain, beyond what one would normally find in a course on money and banking. This course provides a high-level view of the various elements of digital financial services; it also provides practical thoughts and insights into key operational details and helps to map out a complex landscape.
